

# TEJAS MELKOTE

B.Tech Computer Science Student

📞 7019280175    @ coooltejasdagr@gmail.com    🔗 <http://www.linkedin.com/in/tejas-melkote-390545309>  
📍 Bengaluru, India 5600038    College email: tejas2.mitblr2022@learner.manipal.edu

## SUMMARY

B.Tech Computer Science student specializing in Artificial Intelligence, with a strong foundation in Machine Learning and Data Science. Demonstrates adaptability and leadership across various roles, consistently seeking to enhance technical skills through hands-on projects and internships. Aims to make a meaningful impact in the tech industry through innovation and collaboration.

## EXPERIENCE

### Intern

**CirrusLabs Pvt Ltd**    📅 05/2025 - 07/2025    📍 Bengaluru, India  
Enhanced AI solutions for projects by implementing advanced LLM chatbots, AI agents, and ML pipelines using Streamlit and FastAPI.

### Intern

**SuperAGI** (SDE intern-Marketing)    📅 01/2026 - 06/2026    📍 Bangalore, India  
Working in a full-stack production environment using Golang, Ruby-on-Rails, Vue.js to develop and Marketing campaign features (Email and Whatsapp). Staging done using Jenkins and finally deployed many PRs to production. Worked on Campaign features and developing bug-fixes using Jenkins and ArgoCD and finally deploying many critical PRs into production. Bugs like Email campaign validation, Whatsapp campaign test button feature were solved. PRs were raised and deployed into production. Learnt about automation and controller endpoints. Learnt about Sidekiq, Redis, Kafka and database migrations. Learnt about CRM platforms and automation.

## EDUCATION

**B.Tech in Computer Science Engineering (AI) CGPA :8.26**  
**Manipal Institute Of Technology**    📅 06/2022 - 06/2026    📍 Bengaluru  
**12th Grade (Grade:90.33%)**  
**Narayana PU College**    📅 04/2020 - 04/2022    📍 Bengaluru  
**10th Grade (Grade :95%)**  
**Frank Anthony Public School**    📅 05/2008 - 05/2020    📍 Bangalore

## PROJECTS

### Various Projects

📅 07/2023 - Present    📍 Bangalore, India  
Various machine learning and software development projects encompassing a wide range of skills.

- Developed a PDF summarizing chatbot and a tool for analyzing medical images, offering detailed analytics and login capabilities.
- Created a speech-to-text system leveraging NLP and OpenAI libraries for enhanced accessibility.
- Built an AI trip planner with seven API integrations, using Streamlit, FastAPI, and Docker, featuring AI agents and Lang graph using 7 different APIs like weather API, Tavily, GPlaces API and Grok.
- Developed a crop yield prediction model with CNN-RNN-LSTM architecture for accurate forecasting.
- Implemented a Weather Prediction App with modern web technologies like React and JavaScript.
- Utilised ML pipelines to build a car price prediction model with 99% accuracy and engaged in projects involving RAGs, web scraping, and data analysis with PowerBI.
- Worked on multi-modal AI projects which involved text to speech and text to audio conversion.
- Worked on data cleaning using Excel and basic report generation using PowerBI.
- Also worked on testing and fine-tuning few ML models.
- Predicted customer churn and segmented customers using advanced ML algorithms, including KNN, DBSCAN and SVMs.

## STRENGTHS

**Technical Skills**  
Improved project outcomes through completing many AI and Data Science projects successfully.

## KEY ACHIEVEMENTS

**Leadership Experience**  
Elected as the Class Representative of AI C Section and successfully leading numerous functions as Public Relations Head of E-cell and Operations Head of College Fest.

## SKILLS

|                   |                  |                  |      |
|-------------------|------------------|------------------|------|
| C/C++             | RAG              | Vector databases |      |
| Gen AI            | AI Agents        | LLM              |      |
| Computer Vision   | HTML             | Data Science     |      |
| DBMS              | Langchain        | Web Scraping     |      |
| Blockchain        | ML pipelines     | GitHub           | Java |
| Computer Networks | Machine Learning |                  |      |
| Deep Learning     | Cloud Computing  | NLP              |      |
| Agile             | Python           | PostgresSQL      |      |

## INTERESTS

**Extracurricular Activities**  
Active participation in college events and cultural activities, with strong interests in technology and innovation.

## LANGUAGES

|         |            |       |
|---------|------------|-------|
| English | Native     | ●●●●● |
| Hindi   | Proficient | ●●●●● |
| Kannada | Advanced   | ●●●●● |

## TRAINING / COURSES

**Courses (Coursera)**  
Database Management Systems (DBMS)  
Cloud computing IBM skill build, course on blockchain.  
Object-Oriented Programming Systems (OOPS)  
Data Analytics  
Computer Vision  
Machine Learning, DSA courses, course on reinforcement learning.
